

Advanced UC Softphone User Guide

Install and sign in on iPhone, iPad, or Android.

1 Install the app

Download Advanced UC Softphone from the Google Play Store or the Apple App Store.

play.google.com/store/apps/details?id=com.unitedcloud.advancedsoftphone

if

apps.apple.com/us/app/advanced-uc-softphone/id6736867045

2 Watch for your setup email

After the app is installed, the cloudDS Service Department will send you an email with your login credentials and a QR code.

3 Open the app and sign in

You can sign in in either of two ways:

- **Scan the QR code**
Tap the QR icon on the login screen and scan the QR code from your email.
- **Sign in manually**
Enter your Domain, Username, and Password, then tap **Log In**.

4 Start using the app

Once you are signed in, your cloudDS business phone service is ready to use.
